

## Quality Control, InspectionManager, Pre+speciation, and Code/ Construction Consulting for Building Professionals

### Company Profile

Project **Quality Control (PQC)** provides construction Quality Control Assessments (QCA) and other expert construction services for contractors, developers, and design professionals involved in projects, such as renovations, additions, and new construction. **ProjectQA** is dedicated to you and the success of each project.

### Services

**ProjectQC** offers a series of quality assurance assessments, providing our clients with outstanding project benefits. These benefits not only translate into a better-finished project through quality controls, but also into greater project satisfaction for you and your clients. In addition, **ProjectQC** can offer construction and building code consulting to resolve issues. As your representative, we're a part of your project team to ensure your satisfaction. **ProjectQC** also offers our **InspectionManager** service, which helps to meet and exceed the minimum government's requirements. In order to preserve the highest level of integrity, **ProjectQC** doesn't work for homeowners, only with construction professionals. The goal of **ProjectQC** is to positively affect the project's life, cost, quality, and your peace of mind.

### Benefits

- ❑ Teamwork & Partnership – a great marketing tool. Winning more projects and maintaining greater client satisfaction.
- ❑ Improved Quality Control measures, leading to higher product quality standards and better code compliance.
- ❑ Greater quality controls, helping to pass inspections, every time.
- ❑ **InspectionManager, Pre+speciation**, and schedule management reducing failed inspections and improving time management.
- ❑ Consulting that helps to prevent costly **Stop Work Orders** and delays.
- ❑ Experienced advocate with inspection agencies/building departments.
- ❑ Consulting to find acceptable options and product solutions.
- ❑ Lower project cost by avoiding costly mistakes and time delays.

### Highlights

- **ProjectQC** improves the whole project process.
- **ProjectQC** is a collaboration that wins more projects.
- **ProjectQC** offers the best client satisfaction possible.

### Requirements and Limitations

PQC is available only to residential & small commercial contractors, developers, and design professionals. This service is not available to homeowners. PQC may not be available on projects with other **StructuredProjects** services. Minimum project size is \$10,000.

Building with a partnership that <sup>really</sup> works.

**ProjectQC** on your team!
